1. *Game Description*

XEVIOUS is the classic arcade game brought to home use by Bandai.

The game begins with Solvalou fighters flying over the *XEVIOUS* enemy territory. You are controlling Solvalou with its anti-aircraft missiles and surface bombs. The bomb sight is shown on the indicator attached in front of Solvalou so you can drop bombs on the enemy bases as they appear during your flight. Additionally, the enemy Floating Fortresses, Ando Ageanesis will appear. Your goal is to destroy them and proceed on with your mission.

Please read this instruction booklet carefully to ensure proper handling of your new game. Save the booklet for future reference.

Precautions

1. Turn off the power when inserting or removing the Game Pak.
2. This is a high precision game. It should not be stored in places that are very hot or very cold. Never hit or drop it. Do not take it apart.
3. Avoid touching the connectors and do not get them wet or dirty. Doing so may damage the game.
4. Do not clean with benzene, paint thinner, alcohol or other such solvents.

Note: In the interest of product improvement, Nintendo Entertainment System specifications and design are subject to change without prior notice. This game has been programmed to take advantage of the full screen. Some older models have rounded screens and may block out a portion of the image.

Enemy—The *XEVIIOUS* enemy forces are in the air and on the ground. Generally more points are scored for hitting the enemy ground forces. The *XEVIIOUS* enemy weapons are defined by their shapes.

Area—The borders between the game areas are indicated by forests. If you are shot down in the first 70% of an area you will return to the beginning of that area. If you have proceeded further than 70% of an area, and are shot down, you will advance to the next area.
